

CANMORE UNIVERSAL ANTIFREEZE-COOLANT 70/30 PRE MIXED

FEATURES & BENEFITS

- Compatible with heavy duty diesel engines with SCA.
- Protects all coolant system metals, including aluminum.

CANMORE UNIVERSAL ANTIFREEZE COOLANT 70/30 is a traditional green colored coolant recommended for the cooling systems of older makes and models of foreign and domestic passenger vehicles, light duty trucks and SUV's. Formulated using high quality ethylene glycol coupled with a low silicate additive technology to prevent corrosion and pitting caused by cavitation.

CANMORE UNIVERSAL ANTIFREEZE COOLANT 70/30 provides excellent protection against temperature extremes and boil-over when used in accordance with OEM and product manufacturer's guidelines.

TYPICAL RESULTS

GRADE	CANMORE UNIVERSAL ANTIFREEZE COOLANT 70/30
COLOUR	GREEN
DENSITY AT 15°C (kg/L) (D4052)	1.0463
FREEZE POINT (D1177)	-15°C / 5°F
pH (D1287)	10
GLYCOL CONTENT (wt.%)	27 min.
INHIBITORS & WATER (wt.%)	73 max
